SUMMARY

Computer Engineering undergraduate at the University of Ruhuna with a strong interest in DevOps, cloud technologies, and automation. Familiar with modern DevOps practices such as CI/CD, containerization, and cloud deployment. Seeking a DevOps Internship to apply technical knowledge, improve system reliability, and gain hands-on industry experience.

EDUCATION

B.Sc. (Hons) in Computer Engineering- University of Ruhuna, Sri Lanka **2023 – Present**

- Current GPA: 3.22/4.00

GCE Advanced Level Examination- R/EMB/Chandrikawewa Jayanthi National Collage **2021**

- 2A's, 1 B, and selected to study engineering

PROJECT

DevOps CI/CD Pipeline – Individual Project - [GitHub](#)

- Automated build and deployment with Jenkins and GitHub webhook.
- Used Terraform to provision and manage AWS EC2 infrastructure as code.
- Managed environment variables and Dockerized deployment on EC2.

Technologies: Jenkins, Docker, Terraform, AWS EC2, GitHub

Centralized Doctor & Channeling Management System – Group Project | Ongoing

- Developing a centralized healthcare web application to connect patients, doctors, and hospitals for efficient appointment channeling and management.
- Implementing role-based authentication and user management for patients, doctors, and hospitals.
- Building modules for doctor search, profile management, appointment booking, cancellation, and rescheduling with real-time availability.
- Enabling secure medical report and prescription uploads, allowing doctors to review patient history before consultations.
- Integrating online payment processing, ratings & feedback system, and notification services for improved user experience.

Technologies: Java (Spring Boot), MongoDB, React.js, Tailwind CSS, JWT Security, Cloudinary.

Recipe Mobile Application – Group Project (2 Members) - [GitHub](#)

- Built a Flutter-based recipe app with Firebase authentication and Firestore database.
- Implemented search, category filter, favorites, and recipe detail features.
- Developed meal planning module for users to organize daily meals.

Technologies: Flutter, Dart, Firebase, Firestore, Android Studio

Real Estate Web Application – Individual Project - [GitHub](#)

- Developed a full-stack real estate web application with JWT-based role authentication and property management.
- Enabled users to search, view details, contact owners, add favorites, and post properties for sale.
- Built admin dashboard with CRUD operations for property management.
- Integrated image storage using Cloudinary and implemented MERN stack architecture.

Technologies: MongoDB, Express.js, React.js, Node.js, Tailwind CSS, Cloudinary.

QA & Test Automation Project – Individual Project - [GitHub](#)

- Applied TDD/BDD with JUnit & Cucumber in Spring Boot.
- Automated UI (Selenium) and API tests (Postman/REST Assured).
- Integrated tests to CI pipeline and performed JMeter load testing.
- Conducted OWASP security testing and SonarQube quality analysis.

Technologies: React.js, Spring Boot, JUnit, Cucumber, Selenium, Postman, JMeter, SonarQube, Jira

Pet Adoption Platform – Web & Desktop App (Individual) - [GitHub](#)

- Developed a pet adoption platform with role-based login, pet search, and adoption request features.
- Built admin dashboard with CRUD operations and image upload for pet management.
- Designed REST APIs and MySQL database with React.js frontend integration.

Technologies: React.js, Node.js, Express.js, MySQL

SKILLS

- | | |
|---|---|
| • Programming Language:
Python, Java, Dart, JavaScript, TypeScript | • Databases:
MySQL, MongoDB, Firebase |
| • Web Development:
HTML, CSS, Tailwind CSS, React, Node.js, Express | • Mobile Application Development:
Flutter |
| • Version Control System:
Git, GitHub | • IDES:
Visual Studio, Visual Studio Code, Android Studio, IntelliJ |
| • Backend & APIs:
RESTful APIs, Prisma | • DevOps / Deployment Tools:
Docker, Jenkins, Terraform, AWS |

ACHIEVEMENTS

HaXtreme 4.0 (2025) - Finalists - IEEE Student Branch,
University of Ruhuna

EXTRA – CURRICULAR ACTIVITIES

Committee Member – Gaweshakayo Club, Faculty of Engineering, University of Ruhuna

Technical Team Committee Member – XBOTIX 2025 Robotix Competition
